Mastering Excellence

Corporate Profile

Duncan-K Trading and Projects

About Us

Duncan-k Trading and Projects is a diversified Services, Engineering, Construction and Power Company which offers its services through its accrued skills sets and resources across Southern Africa and it's headquartered in Pretoria, South Africa. The company operates across many sectors with a mission to fulfil the clients' needs comprehensively.

Founded in 2011, Duncan-K has already been involved and delivered in key Construction, Pipelines, Electric Powerlines, Engineering Services, Water & Waste and EPC Projects through main and sub-contracting services.

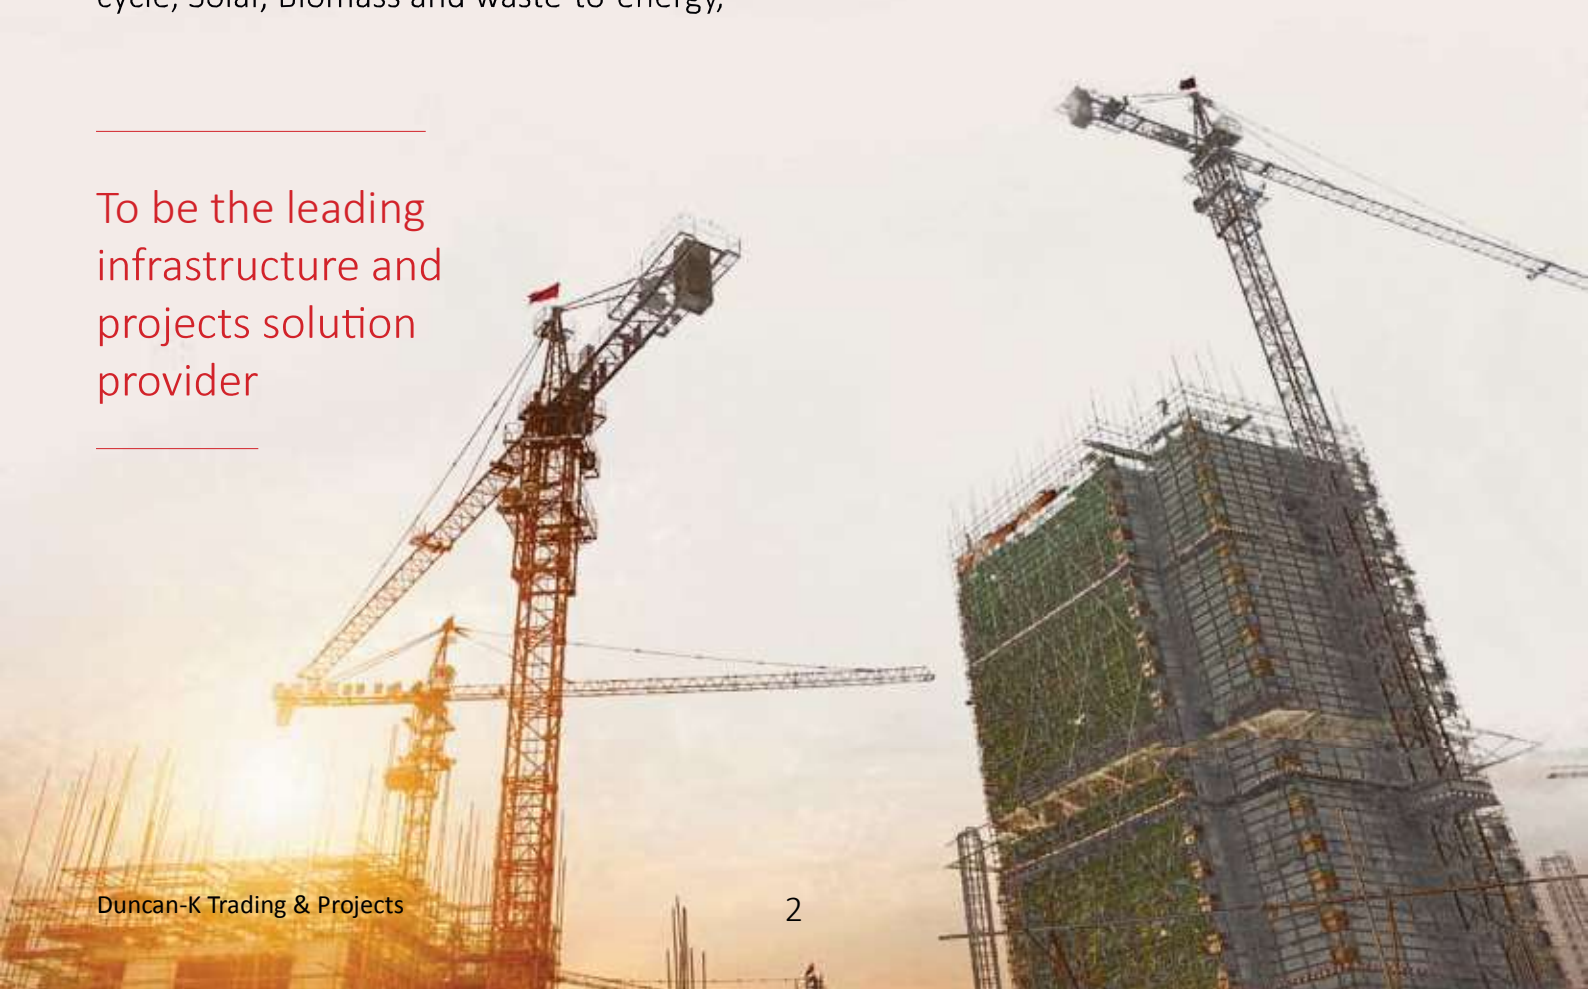

Duncan-K designs builds, deliver and maintains key infrastructures using its own skilled and dedicated workforce, ensuring greater control and mitigation of risks to delivery schedule and quality of work.

Today, we are also working on renewable and alternative sources of power such as: Integrated gasification, Combined cycle, Solar, Biomass and waste-to-energy,

Transmission projects and Advanced technologies for emissions retrofits and carbon capture

Our ability to offer a variety of contract models, including: Construct only, Construction Management only, Contractor-led EPCM with direct delivery, Design and Construct, Engineering only, Engineering Procurement Construction (EPC), Engineering Procurement Construction Management (EPCM), Engineering Services, Supply and construct makes us one of few enterprises to effectively comprehend client needs.
